

Synthesizing the business cycle, the aggregate demand/supply model, and fiscal policy into a timeline.

Janet E Scott

Southeast Community College

Lincoln, NE

**JET SET 2023**

# Principles of Macroeconomics

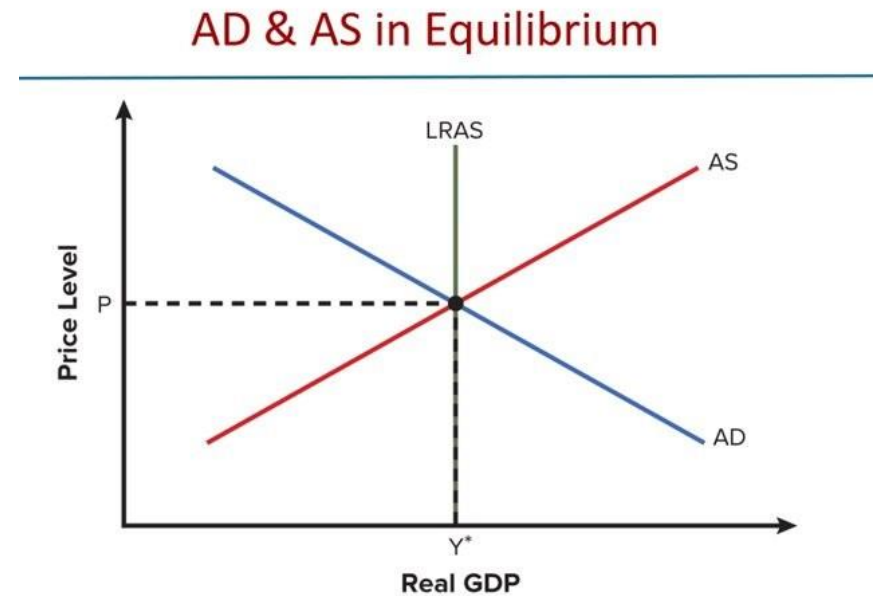

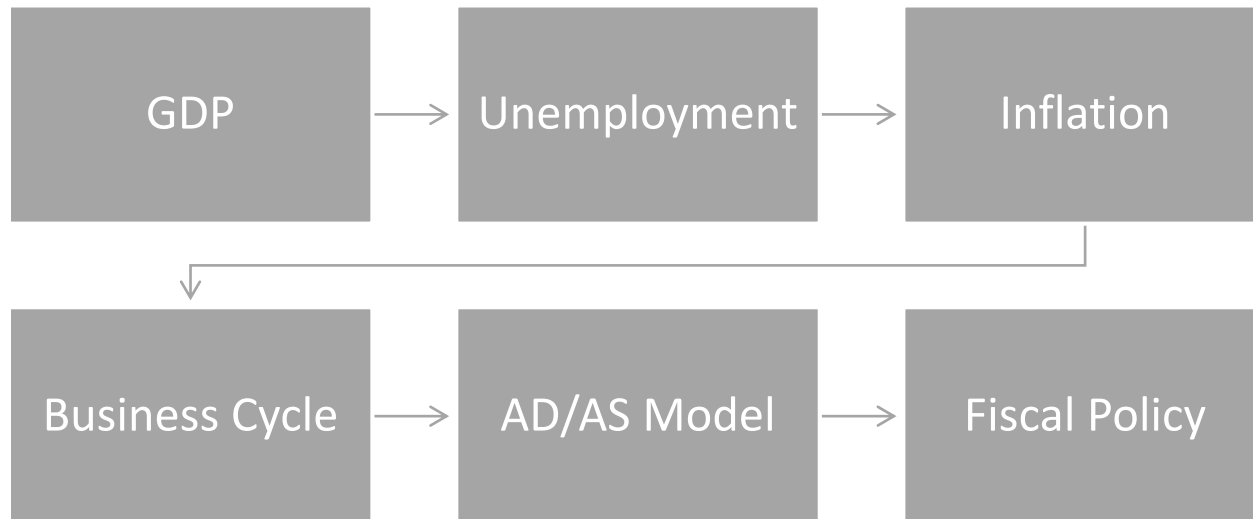

## My Courses:

- Hands-on learning
- Flipped classroom – use tech (cell phones, tablets, laptops) for activities
- Class size: 18-25 students
- Resource: Asarta/Butters Connect Master
- 50-minute periods

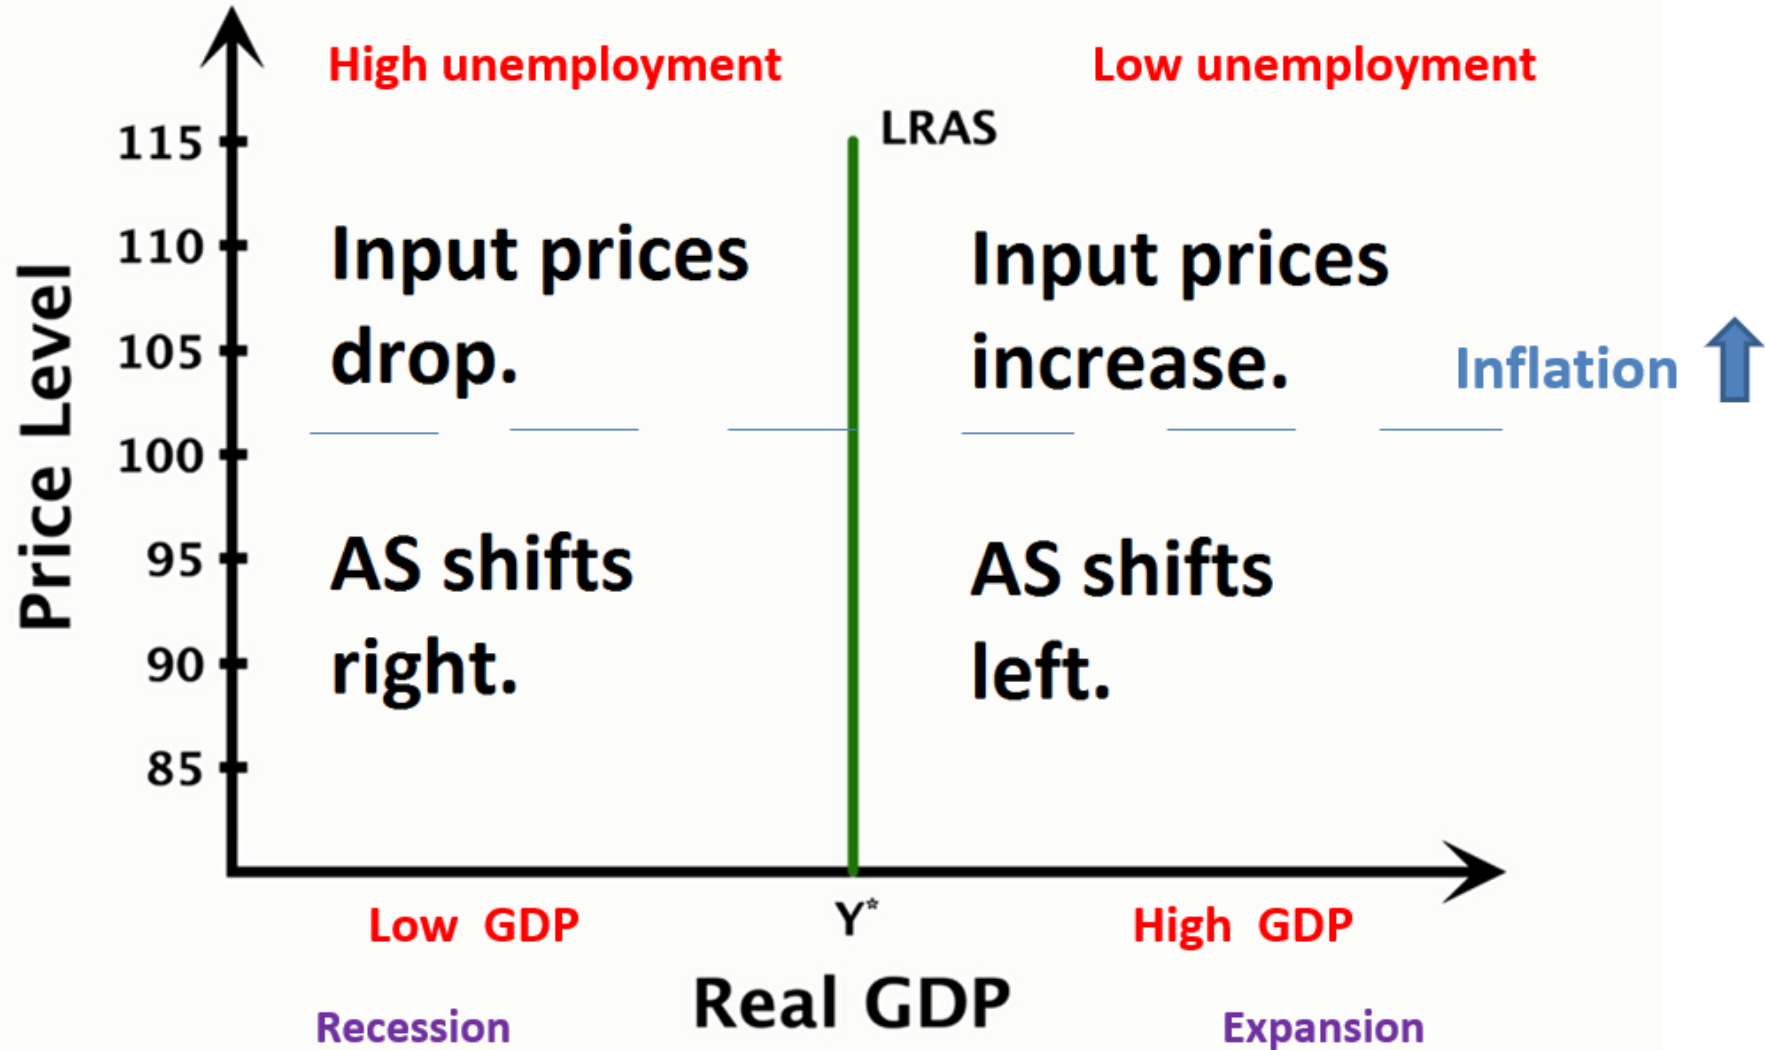

## In-class Activity & Discussion:

1. Review
2. Research & Draw AD/AS graphs
3. Students Update Padlet
4. Discuss and synthesize

# Brief Review (~5 mins)

# Aggregate Demand Aggregate Supply Model

Prep for in-class  
Activity:

- High Tech: set up Padlet and share link in LMS
- Low Tech: use white board

# Activity

Review & Group	Brief Review and form student groups
Assign	4-year presidential term to each group
Find	Annual numbers for GDP, Unemployment, Inflation (first and last year of term) <a href="#">(The Balance: US Real GDP Growth Rate by Year Compared to Inflation and Unemployment)</a>
Draw	AD/AS Graph of first year of presidential term and pick a point that demonstrates where US economy was
Research	3 Fiscal Policies for Presidential Term: Be prepared to discuss HOW the policies impacted the economy/business cycle
Draw	AD/AS Graph of election year (last year of term) pick a point that demonstrates where the US economy was, be prepared to defend that point with Fiscal Policies

**Update Padlet with Numbers, Graphs, and Policies**

# Discussion

## Potential questions for students:

- Expansionary/Contractionary policy?
- Specific measures? (taxes, spending, stimulus)
- Objectives?
- Desired impact?
- Unintended consequences?
- Competing economic events?
- Long-term or short-term?
- Public opinion?

## From Spring 23 section:

[https://padlet.com/jscott/econ-2110\\_In04-fiscal-policy-discussion-w40lz4deud64jqqi](https://padlet.com/jscott/econ-2110_In04-fiscal-policy-discussion-w40lz4deud64jqqi)

# Benefits of Discussion

1. Can help "de-politicize" fiscal policy
2. Visualization (specifically recessions)
3. Students confident to speak up
4. Hands-on, group interaction
5. Synthesizes major macro concepts

# Impact of Activity

## Fiscal Policy Timeline Data

**3 Semesters - 183 students finished Macro**

**128 Participated ~70%**

**55 Did Not ~ 30%**

**Attempted Fiscal Policy**

**AD/AS Graph on Final**

**101 Students ~79%**

**17 Students ~ 31%**

**Final Exam Average**

**69%**

**61%**
